SUMMARY OF THIS INFORMATION STATEMENT

The following is only a summary of the information that appears elsewhere in this Information Statement (the "Information Statement") for the Shares Program (as hereinafter defined) and in the Joint Exercise of Powers Agreement (the "Agreement," which is provided separately) of the Investment Trust of California, doing business as CalTRUST ("CalTRUST"). All capitalized terms used, but not otherwise defined, herein shall have the meanings ascribed to such terms in the Agreement. Prospective Members of or Participants in CalTRUST should consult their own advisers as to the consequences of participation in CalTRUST and investment through the Shares Program. This Information Statement provides detailed information about CalTRUST. Please read it carefully and retain it for future reference.

CalTRUST Investment Trust of California, doing business as CalTRUST, is a California joint powers authority that has been established by its members ("Members") pursuant to the Agreement. CalTRUST's principal executive office is 1100 K Street, Suite 101, Sacramento, California 95814 and its telephone number is 833-CALTRUST (225-8787). CalTRUST is subject to the California Joint Exercise of Powers Act.

Members Each Member must be a California "Public Agency" as that term is defined in Section 6500 of Title 1, Division 7, Chapter 5, Article 1 of the California Government Code (the "Joint Exercise of Powers Act"), which, as of the date of this Information Statement, is defined as "the federal government or any federal department or agency, this state, another state or any state department or agency, a county, county board of education, county superintendent of schools, city, public corporation, public district, or regional transportation commission of the State of California or another state, or any joint powers authority formed pursuant to Article 1 of the Joint Exercise of Powers Act by any of these agencies," and includes "a nonprofit corporation whose membership is confined to public agencies or public officials."

Each Member is also either a political subdivision of a state, or an agency, authority, or instrumentality of the United States, a state or any political subdivision of a state, as those terms are used in the Investment Company Act of 1940, as amended (the "1940 Act").

Participants Each participant ("Participant") must be a California Public Agency, as that term is defined in Section 6500 of the Joint Exercise of Powers Act, which, as of the date of this Information Statement, is defined as "the federal government or any federal department or agency, this state, another state or any state department or agency, a county, county board of education, county

superintendent of schools, city, public corporation, public district, or regional transportation commission of the State of California or another state, or any joint powers authority formed pursuant to Article 1 of the Joint Exercise of Powers Act by any of these agencies," and includes "a nonprofit corporation whose membership is confined to public agencies or public officials."

Purpose

The purpose of CalTRUST is to consolidate investment activities of its Participants and thereby reduce duplication, achieve economies of scale and carry out coherent and consolidated investment strategies through the issuance of shares of beneficial interest in investments purchased by CalTRUST (the "Shares Program"). The California Government Code provides that Public Agencies may purchase shares of beneficial interest issued by a joint powers authority, such as CalTRUST, organized pursuant to Section 6500 of the Act.

All money not required for the immediate needs of a Public Agency may be invested in certain investments described in this Information Statement. However, the California Government Code limits the amount of surplus money of a Public Agency that may be invested in such investments. Funds consisting of tax-exempt bond proceeds may be subject to investment restrictions, arbitrage management and rebate requirements under federal tax laws. Public Agencies seeking to invest tax-exempt bond proceeds should consult professional advisers familiar with those requirements to determine whether investing through the Shares Series is appropriate. CalTRUST reserves the right to prohibit the investment of bond proceeds or limit the investment of bond proceeds by a Public Agency to less than 10% of the net asset value of a Series of Shares.

Series

CalTRUST currently offers five active accounts or series of Shares to provide Public Agencies with a convenient method of pooling funds, (i) the "CalTRUST Liquidity Fund" Series, (ii) the "CalTRUST Short-Term Fund" Series, (iii) the "CalTRUST Medium-Term Fund" Series, (iv) the TempFund, a series of BlackRock Liquidity Funds, Institutional Share Class, offered to California Public Agencies through CalTRUST as the "Money Market Fund", and (v) the FedFund, a series of Blackrock Liquidity Funds, Institutional Share Class, offered to California Public Agencies through CalTRUST as the "Government Fund", (each, a "Series" and collectively, the "Series").

Investment Objectives

The CalTRUST Short-Term Fund and the CalTRUST Medium-Term Fund seek to attain as high a level of current income as is consistent with the preservation of principal. The CalTRUST Liquidity Fund, Money Market Fund and the Government Fund seek as high a level of current income as is consistent with liquidity and stability of principal.

The funds in each Series will be invested in only fixed-income oriented investments permitted in accordance with Sections 53601 and 53635 of the California Government Code. The CalTRUST Short-Term Fund will have a target portfolio duration of 0 to 2 years. The CalTRUST Medium-Term Fund will have a target portfolio duration of 1-1/2 to 3-1/2 years.

The CalTRUST Liquidity Fund will have a maximum portfolio duration weighted average maturity of 60 days and a maximum weighted average life of 120 days.

The Money Market Fund and the Government Money Market Fund each have a maximum dollar-weighted average maturity of 60 days, and a maximum dollar-weighted average life of 120 days, in accordance with Rule 2a-7 of the Investment Company Act of 1940 (1940 Act).

Risks

The principal risks of investing through the Shares Program, which could adversely affect the market value, yield and total return of a Series of Shares, include market risk, interest rate risk, credit risk, issuer risk, liquidity risk, mortgage risk and management risk. These risks are discussed in more detail later.

The values of the Shares of the CalTRUST Short-Term Fund Series, the CalTRUST Medium-Term Fund Series, and the Money Market Fund change in response to movements in interest rates. If rates rise, the values of debt securities generally fall. The longer the average duration of the CalTRUST Short-Term Fund and CalTRUST Medium-Term Fund Series' investment portfolio, the greater the potential change in value. The CalTRUST Liquidity Fund and the Government Fund seek to maintain a \$1.00 net asset value per share. The values of the Shares of a Series may also decline in response to events affecting the issuer of any securities held in the applicable Series or its credit rating. The value of some mortgage-backed and asset-backed securities in which funds attributable to the CalTRUST Short-Term Fund Series, the CalTRUST Medium-Term Fund Series, and the Money Market Fund Series of Shares may be invested also may fall because of unanticipated levels of principal prepayments that can occur

when interest rates decline.

The Shares in the CalTRUST Liquidity Fund, CalTRUST Short-Term Fund and CalTRUST Medium-Term Fund are not registered under any federal or state securities law. Neither CalTRUST, the CalTRUST Liquidity Fund, the CalTRUST Short-Term Fund, nor the CalTRUST Medium-Term Fund is registered under the 1940 Act. For that reason, CalTRUST, the CalTRUST Liquidity Fund, the CalTRUST Short-Term Fund, and the CalTRUST Medium-Term Fund are not subject to the various protections of the 1940 Act, which apply to certain pooled vehicles such as money market funds and other mutual funds.

The shares in the Money Market Fund and Government Fund are registered with the Securities and Exchange Commission (SEC) under the provisions of Rule 2a-7 of the Investment Company Act of 1940, as amended. Additional information regarding the Money Market Fund and the Government Fund can be found in the BlackRock Liquidity Funds, Institutional Shares fund prospectus, available online at:

Net Asset Value

The net asset value of the CalTRUST Short-Term Fund is calculated daily. The net asset values of the CalTRUST Medium-Term Fund is calculated daily, although shares in these Series are redeemed once per month on the last Business Day of the month. The net asset value in the Liquidity Fund is calculated daily. The net asset value of the Money Market Fund is calculated multiple times daily. The net asset value of the Government Fund is calculated daily. Income from each Series is reinvested in the applicable Series.

SECTION II

INVESTMENT STRATEGIES AND OBJECTIVES

A. PURPOSE: WHO MAY INVEST

CalTRUST is a separate joint powers authority and public agency established by its members ("Members") under the provisions of Section 6509.7 of Title 1, Division 7, Chapter 5, Article 1 of the California Government Code (the "Joint Exercise of Powers Act") to provide Public Agencies with consolidated investment activities and thereby reduce duplication, achieve economies of scale and carry out coherent and consolidated investment strategies. Members and Participants must each be a California "Public Agency" as that term is defined in Section 6509.7 of the Joint Exercise of Powers Act, which, as of the date of this Information Statement, is defined as "the federal government or any federal department or agency, this state, another state or any state department or agency, a county, county board of education, county superintendent of schools, city, public corporation, public district, or regional transportation commission of the State of California or another state, or any joint powers authority formed pursuant to Article 1 of the Joint Exercise of Powers Act by any of these agencies," and includes "a nonprofit corporation whose membership is confined to public agencies or public officials."

All money not required for the immediate needs of Public Agencies may be invested in certain investments described in this Information Statement. However, the California Government Code limits the amount of surplus money of a Public Agency that may be invested in such investments.

Funds consisting of tax-exempt bond proceeds may be subject to investment restrictions, arbitrage management and rebate requirements under federal tax laws. Although CalTRUST does not initially intend to permit Participants to invest tax-exempt bond proceeds to the extent that the bond proceeds of a Participant would constitute greater than 10% of the assets in any Series, if the 10% threshold is later or inadvertently reached with respect to a Series, such Series will no longer qualify as an "external" commingled fund with the consequence that Participants will be deemed to have received, for purposes of arbitrage rebate and yield calculations, phantom income equal to the reasonable administrative costs related to overhead and other indirect costs that would otherwise have been deductible for such calculations. ***Public Agencies that invest tax-exempt bond proceeds should consult professional advisers***

familiar with those requirements to determine whether investing through the Shares Program is appropriate.

B. SERIES BENCHMARKS

CalTRUST currently offers five active accounts or series of Shares to provide Public Agencies with a convenient method of pooling funds, (i) the “CalTRUST Liquidity Fund” Series, (ii) the “CalTRUST Short-Term Fund” Series, (iii) the “CalTRUST Medium-Term Fund” Series, (iv) the Money Market Fund, and (v) the Government Fund (each, a “Series” and collectively, the “Series”). All Shares issued hereunder, including without limitation, Shares issued in connection with a dividend in Shares or a division of Shares, shall be fully paid and non-assessable. The CalTRUST Liquidity Fund, CalTRUST Short-Term Fund and CalTRUST Medium-Term Fund will be benchmarked against a fund or index believed by the Investment Manager to be comparable in investment strategy and duration. The current benchmarks are described below. If a benchmark fund or index were to modify its strategy or duration in the future, the Investment Manager could select alternate benchmarks with which to compare a Series' performance.

CalTRUST Liquidity Fund Benchmark:

The performance benchmark for the Liquidity Fund is the index specified below:

ICE BofAML 3-Month US Treasury Bill Index (G001)

ICE BofAML US 3-Month Treasury Bill Index is comprised of a single issue purchased at the beginning of the month and held for a full month. At the end of the month that issue is sold and rolled into a newly selected issue. The issue selected at each month-end rebalancing is the outstanding Treasury Bill that matures closest to, but not beyond, three months from the rebalancing date. To qualify for selection, an issue must have settled on or before the month-end rebalancing date.

Inception date: December 31, 1977

CalTRUST Short-Term Fund Benchmark:

The performance benchmarks for the Short-Term Fund are the investment funds specified below:

Local Agency Investment Fund (“LAIF”)

LAIF is an investment alternative for California’s local governments and special districts, which was enabled under Section 16429.1 et seq. of the California Government Code. LAIF invests in certain securities authorized by Sections 16430 and 16480.4 of the California Government Code. In 2006, LAIF had

\$16.7 billion under management. LAIF conducts a market valuation of its investments each month.

Barclays Short-Term Government/Corporate Index

The Barclays Short-Term Government/Corporate Index is an unmanaged index consisting of the cumulative daily total returns of US Treasuries, federal agency securities and investment-grade corporate bonds with maturities between one and twelve months.

The index is re-balanced on the last calendar day of the month. Issues that meet the qualifying criteria are included in the index for the following month. Issues that no longer meet the criteria during the course of the month remain in the index until the next month-end rebalancing at which point they are dropped from the index.

An index is not available for direct investment and does not reflect the deduction of fees and expenses.

CalTRUST Medium-Term Fund Benchmark:

The performance benchmark for the Medium-term Fund is the unmanaged index specified below:

Medium-Term Fund: Bank of America Merrill Lynch 1-3 Year AAA-A US Corporate & Government Index

The BofA Merrill Lynch 1-3 Year AAA-A US Corporate & Government Index is a subset of The BofA Merrill Lynch US Corporate & Government Index including all securities with a remaining term to final maturity less than 3 years and rated AAA through A3, inclusive.

The BofA Merrill Lynch US Corporate & Government Index tracks the performance of US dollar denominated investment grade debt publicly issued in the US domestic market, including US Treasury, US agency, foreign government, supranational and corporate securities.

For the 'A or better' or AAA-A indices, qualifying securities must have a AAA through A3 rating (based on an average of Moody's, S&P and Fitch). In addition, qualifying securities must have at least one year remaining term to final maturity, a fixed coupon schedule and a minimum amount outstanding of \$1 billion for US Treasuries and \$250 million for all other securities. Bills, inflation-linked debt and strips are excluded from the Index; however, original issue zero coupon bonds are included in the Index and the amounts outstanding of qualifying coupon securities are not reduced by any portions that have been stripped. 144a securities, both with and without registration rights, and corporate pay-in-kind securities,

including toggle notes, qualify for inclusion. Callable perpetual securities qualify provided they are at least one year from the first call date. Fixed-to-floating rate securities also qualify provided they are callable within the fixed rate period and are at least one year from the last call prior to the date the bond transitions from a fixed to a floating rate security. Eurodollar bonds (USD bonds not issued in the US domestic market), tax-exempt US municipal, warrant-bearing, dividends-received-deduction-eligible (DRD-eligible) and defaulted securities are excluded from the Index.

An index is not available for direct investment and does not reflect the deduction of fees and expenses.

There can be no assurance that any Series will perform as well as or better than its designated benchmark fund or index.

C. INVESTMENT BENEFITS

The Investment Manager seeks to provide the following benefits to purchasers of Shares in any Series:

D. AUTHORIZED INVESTMENTS

The securities purchased by CalTRUST through the Investment Manager in the CalTRUST Liquidity Fund, CalTRUST Short-Term Fund, and CalTRUST Medium-Term Fund will be comprised exclusively of the investments described below (the "Authorized Investments"). These investments are authorized investments under the California Government Code, as may be amended from time to time, for money not required for the immediate needs of Public Agencies. The California Government Code limits the amount of surplus money of a Public Agency which may be invested in certain of the investments described below. Each Participant shall be responsible for monitoring the aggregate amount of its investments in any of these kinds of investments to assure its own compliance with the California Government Code. Neither CalTRUST, the Investment Manager, the Administrator or any other agents of CalTRUST shall be responsible for such monitoring. ***The Board may revise this Investment Policy from time to time subject to Section 4.2(a) of the Agreement.*** Pursuant to the Agreement, the Board shall cause the amended Investment Policy to be delivered to each Participant.

Although certain of the Authorized Investments set forth below include NRSRO (as defined below) rating requirements, if an NRSRO does not explicitly rate a security or issuer, then for purposes of meeting the requirements set forth herein (i) if the NRSRO rates a related asset or program, the NRSRO's rating of the related asset or program may be attributed to the security or issuer and (ii) if the security is a new issue, an expected rating may be attributed to the security based on the applicable prospectus or ratings of similar issuances.

E. DURATION OF SERIES AND MATURITY OF INVESTMENTS

Each Series seeks to attain as high a level of current income as is consistent with the preservation of principal. Each Series will invest in only fixed-income oriented Authorized Investments. The CalTRUST Liquidity Fund seeks a will have maximum portfolio duration of 60 days and a maximum weighted average life of 120 days. The CalTRUST Short-Term Fund seeks a target portfolio duration of 0 to 2 years. The CalTRUST Medium-Term Fund seeks a target portfolio duration of 1½ to 3½ years. The Money Market Fund and the Government Fund each have a maximum dollar-weighted average maturity of 60 days and a maximum dollar-weighted average life of 120 days, in accordance with Rule 2a-7 under the 1940 Act.

Each Series invests in a diversified portfolio of fixed-income oriented investments of varying maturities with a different portfolio “duration.” Duration is a measure of the expected life of a fixed-income oriented investment that was developed as a more precise alternative to the concept of “term to maturity.” Duration incorporates a bond’s yield, coupon interest payments, final maturity, call and put features and prepayment exposure into one measure. Traditionally, a fixed-income oriented investment’s “term to maturity” has been used to determine the sensitivity of the investment’s price to changes in interest rates (which is the “interest rate risk” or “volatility” of the investment). However, “term to maturity” measures only the time until a fixed-income oriented investment provides its final payment, taking no account of the pattern of the investment’s payments prior to maturity. Duration is used in the management of a Series as a tool to measure interest rate risk. For example, a Series with a portfolio duration of two years would be expected to change in value 2% for every 1% move in interest rates.

F. RISKS

1. General. Because the values of the Shares of a Series will change with market conditions (generally other than the Government Fund), so will the value of a Participant’s investment through the Shares program. ***A Participant could lose money on an investment through the Shares Program or an investment through the Shares Program could underperform other investments.*** The Medium-Term Fund has the potential for greater return and loss than the Short-Term Fund. The Series are subject primarily to interest rate and credit risk. Interest rate risk is the potential for a decline in bond prices due to rising interest rates. In general, bond prices vary inversely with interest rates. The change in bond price depends on several factors, including the bond’s maturity date. In general, bonds with longer maturities are more sensitive to changes in interest rates than bonds with shorter maturities. Credit risk is the possibility that a bond issuer will fail to make timely payments of interest or principal to a Series.
2. Obligations of Agencies or Instrumentalities of the United States Government. Certain short-term obligations of agencies or instrumentalities of the United States Government purchased with funds invested through the Series may only be backed by the issuing agency or instrumentality and may not be backed by the full faith and credit of the United States Government. For example, securities issued by the Federal Home Loan Banks and the Federal Home Loan Mortgage Corporation are supported only by the credit of the agency or instrumentality that issued them, and not by the United States Government, and securities issued by the Federal Farm Credit System and the Federal National Mortgage Association are supported by the agency’s or instrumentality’s right to borrow money from the U.S. Treasury under certain circumstances

G. INVESTMENT RESTRICTIONS

The Board has adopted the following investment restrictions for the Shares Program. For the avoidance of doubt, the following investment restrictions do not apply to the portfolios of the Money Market Fund and the Government Fund. Funds invested through a Series in the Shares Program will not be used to:

1. Purchase any securities other than those described under “Authorized Investments,” unless California law at some future date redefines the types of securities which are legal investments for all classes of Participants, in which case the permitted investments for the Series may be changed by the Board to conform to California law.
2. Invest in securities of any issuer in which a Trustee, officer, employee, agent or adviser of CalTRUST is an officer, director or 5% shareholder unless such investment is periodically authorized by resolution adopted by the Board, excluding officers, directors or 5% shareholders of such issuer.
3. Make loans, except that repurchase agreements may be entered into as specified under “Authorized Investments.”
4. Borrow money or pledge, hypothecate or mortgage the assets in a Series or otherwise engage in any transaction that has the effect of creating leverage with respect to a Series; *provided, however*, that short-term credits necessary for the settlement of securities trades may be used, and forward purchases and sales of securities that are expected to settle beyond a normal “T+3” basis may be entered into.
5. Purchase the securities of any issuer (other than obligations issued and guaranteed as to principal and interest by the government of the United States, its agencies or instrumentalities) if, as a result, more than 10% of the total assets in a series would be invested in the securities of any one issuer.

H. APPLICATION OF PERCENTAGES LIMITATIONS AND RATING REQUIREMENTS

Any percentage limitation or rating requirement described under “Investment Strategies and Objectives” will be applied at the time of purchase.

I. NOTICE TO PARTICIPANTS OF MATERIAL CHANGE TO INVESTMENT STRATEGIES AND OBJECTIVES OR INVESTMENT POLICY

The Board may revise the Investment Policy from time to time subject to Section 4.2(a) of the Agreement; and may revise the investment strategies and objectives

of any Series from time to time. Any material change in the investment strategies and objectives for any Series adopted by the Board shall be communicated, in writing, to each Participant prior to the effective date of such change.

SECTION III

INCOME AND VALUE OF THE SERIES

A. INCOME AND DIVIDENDS OF THE SERIES

CalTRUST Liquidity Fund

As of 1:00 p.m. Pacific time each day that the Custodian is open for business (a “Business Day”), the net income of the Liquidity Fund is determined and declared as a dividend to Participants of record as of the close of business on that day. Shares purchased as of 12:00 p.m. on any Business Day will begin earning dividends on such date of purchase. Shares will continue to earn dividends until the Business Day such Shares are redeemed and the funds are wired to the Participant. Earnings for Saturdays, Sundays and holidays are declared on the next Business Day. Dividends declared are paid monthly on the last Business Day of each month and are automatically re-invested in each Series by purchase of additional Shares of such Series.

CalTRUST Short-Term Fund

As of 1:00 p.m. Pacific time each day that the Custodian is open for business (a “Business Day”), the net income of the Short-Term Fund is determined and declared as a dividend to Participants of record as of the close of business on that day. Shares purchased as of 1:00 p.m. on any Business Day will begin earning dividends on such date of purchase. Shares will continue to earn dividends until the Business Day such Shares are redeemed and the funds are wired to the Participant. Earnings for Saturdays, Sundays and holidays are declared on the next Business Day. Dividends declared are paid monthly on the last Business Day of each month and are automatically re-invested in each Series by purchase of additional Shares of such Series.

CalTRUST Medium-Term Fund

As of 1:00 p.m. Pacific time on the last Business Day of each month, the net income of the Medium-Term Fund is determined and declared as a dividend to Participants of record as of the close of business on that day. Shares purchased as of the last Business Day of a month will begin earning dividends for the following month. Shares will continue to earn dividends until the Business Day such Shares are redeemed and the funds are wired to the Participant. Dividends declared are

paid monthly on the last Business Day of each month and are automatically re-invested in each Series by purchase of additional Shares of such Series.

If Shares are redeemed from any Series in any month prior to the payment of dividends on the last Business Day of such month (including in the case of an emergency as approved by the Board of Trustees or otherwise), the Participant shall be entitled to receive a pro rata portion of the dividends such Participant would otherwise be entitled to receive, up to the date of redemption, which shall be paid on the last Business Day of such month.

For the purpose of calculating dividends, net income of each Series consists of interest earned plus or minus any discounts or premiums ratably amortized to the date of maturity and all realized gains and losses on the sale of securities prior to maturity, less all accrued expenses of such Series, including the fees described under “Expenses of the Trust.”

Each Series may attempt to maximize yields through trading to take advantage of short-term market variations. These policies may result in high portfolio turnover. However, because the cost of transactions of the type in which the Series engage is small, a high turnover rate is not expected to affect materially income or net asset value.

Money Market Fund and Government Fund

As of 12:00 p.m. Pacific time each day that the Custodian and the Money Market Fund or Government Fund is open for business (a “Business Day”), the net incomes of the Money Market Fund and the Government Fund are determined and declared as a dividend to Participants of record as of the close of business on that day. Shares purchased on any Business Day will begin earning dividends on such date of purchase. Shares will continue to earn dividends until the Business Day such Shares are redeemed and the funds are wired to the Participant. Earnings for Saturdays, Sundays and holidays are declared on the prior Business Day. Dividends declared from each month are paid monthly on the first Business Day of the next month and are automatically re-invested in each Series by purchase of additional Shares of such Series.

B. VALUATION OF SERIES

The net asset value of the Shares of the Liquidity Fund, Short-Term Fund, an Medium-Term Fund are normally determined by the Account Manager/Recordkeeper as of 1:00 p.m. Pacific time on each Business Day. The net asset value of the shares of the Money Market Fund is normally determined each Business Day as of 5:00 a.m. Pacific time, 9:00 a.m. Pacific time, and 12:00 p.m. Pacific time. The net asset value of the shares of the Government Fund is normally determined as of 3:00 p.m. Pacific time each Business Day.

The net asset value per Share of each Series is computed by dividing the total value of the securities and other assets of such Series, less any liabilities, by the total outstanding Shares of such Series. Liabilities include all accrued expenses and fees of such Series, including the fees described under “Expenses of the Trust.”

The net asset value per share of the CalTRUST Liquidity Fund, CalTRUST Short-Term Fund and CalTRUST Medium-Term Fund normally is determined on the specified day if banks are open for business and the New York Stock Exchange is open for trading. With the exception of the value of securities in the Money Market Fund and the Government Fund, the value of a Series’ portfolio securities is determined on the basis of the market value of such securities or, if market quotations are not readily available, at fair value under guidelines established by the Trustees. Investments with short remaining maturities may be valued at amortized cost which the Board has determined to equal fair value.

Securities in the Government Fund are valued using the amortized cost method, in accordance with Rule 2a-7 under the 1940 Act. The value of securities in the Money Market Fund are typically determined on the basis of the market value of such securities, or if market quotations are not readily available, at fair value under guidelines established by the Board of Directors of the Money Market Fund.

Additional detail regarding the determination of the net asset value of the shares of the Money Market Fund and Government Fund can be found in the BlackRock Liquidity Funds Institutional Shares Fund prospectus, available online at:

<https://www.blackrock.com/cash/en-us/stream-document?stream=reg&product=L-FFUND&shareClass=Class+Inst&documentId=235732~235783~236155&iFrameUrlOverride=%2Fcash%2Fliterature%2Fprospectus%2Fpro-brliquidity-institutionalshares-feb.pdf>

The market value basis for net asset value per Share of each Series (generally other than the Government Fund) may be affected by general changes in interest rates resulting in increases or decreases in the value of securities held by such Series. The market value of such securities will tend to vary inversely to changes in prevailing interest rates. Thus, if interest rates rise after a security is purchased, such a security, if sold, might be sold at a price less than its cost. Similarly, if interest rates decline, such a security, if sold, might be sold at a price greater than its cost. If a security is held to maturity, no loss or gain is normally realized as a result of these price fluctuations. Redemptions by Participants could require the sale of portfolio securities prior to maturity.

The Account Manager/Recordkeeper normally will announce the net asset value of the Shares of the Short-Term Fund by 9:00 a.m. Pacific time on the Business Day after it is determined and will announce the net asset values of the Shares of the Medium-Term Fund within three Business Days after they are determined.

C. YIELD INFORMATION

CalTRUST Short-Term Fund & CalTRUST Medium-Term Fund

The aggregate and average annual total return, current annualized yield and effective annual yield of the Liquidity Fund, Short-Term Fund, and Medium-Term Fund may, from time to time, be quoted in reports, literature and advertisements published by CalTRUST.

Current annualized yield of the Liquidity Fund is computed by averaging the daily dividend declared by such Series during the prior seven calendar day period, dividing by the average daily net asset value per Share of such Series over the same period, and multiplying the result by 365.

Current annualized yield of the Short-Term Fund is computed by averaging the daily dividend declared by such Series during the prior seven calendar day period, dividing by the average daily net asset value per Share of such Series over the same period, and multiplying the result by 365.

Current annualized yield of the Medium-Term Fund is computed by averaging the monthly dividend declared by the applicable Series during the prior months of such calendar year, dividing by the average monthly net asset value per Share of the applicable Series over the same period, and multiplying the result by 12.

The “effective annual yield” of each Series, which reflects the value of compounding and represents the annualization of the current yield with all dividends reinvested, may also be quoted. Effective annual yield of each Series is computed by dividing the monthly dividend rate of such Series by 12, adding 1 and raising the sum to the power of 12, and subtracting 1 from the result.

Money Market Fund and Government Fund

Pursuant to Securities and Exchange Commission (SEC) rules governing registered money market funds, the Money Market Fund and the Government Fund each may quote a “7-Day Yield”. The 7-Day Yield is the accumulated distribution factor for the prior seven days multiplied by $365/7$. The 7-day yield may include capital gains and non-investment income, while the 7-day SEC yield would exclude capital gains and non-investment income.

Additional information regarding the determination and reporting of the “7-Day Gross Yield” can be found on the SEC website at:

<http://www.sec.gov/rules/final/2010/ic-29132.pdf>.

The yields of each Series quoted should not be considered a representation of the yield of such Series in the future, since the yield is not fixed. Actual yields of each Series will depend on the type, quality, yield and maturities of securities held by such Series, changes in interest rates, market conditions and other factors.

SECTION IV

The Agreement permits the Trustees to suspend the right of withdrawal from the Series or to postpone the date of payment of redemption proceeds if the New York Stock Exchange is closed other than for customary weekend and holiday closings, if trading on that Exchange is restricted, or if, in the opinion of the Trustees, an emergency exists such that disposal of Shares or determination of net asset value is not reasonably practicable. If the right of withdrawal is suspended, a Participant may either withdraw its request for withdrawal or receive payment based on the net asset value next determined after termination of the suspension.

Additionally, under Rule 2a-7, the board of directors (“Fund Board”) of the Money Market Fund is permitted to impose a liquidity fee up to 2% on the value of shares redeemed or temporarily restrict redemptions from the Government Money Market Fund for up to 10 business days during a 90 day period, in the event that the Money Market Fund’s weekly liquid assets fall below the following thresholds:

- 30% weekly liquid assets—If the weekly liquid assets of the Money Market Fund falls below 30% of the Money Market Fund’s total assets, and the Fund Board determines it is in the best interests of the Money Market Fund, the Fund Board may impose at any time, and as early as the same day, a liquidity fee of up to 2% of the amount redeemed, or a redemption gate that temporarily suspends the right of redemption.

- 10% weekly liquid assets—If the weekly liquid assets of the Money Market Fund falls below 10% of the Money Market Fund’s total assets as of the end of a business day, the Fund Board will impose, at the beginning of the next business day, a liquidity fee of 1% of the amount redeemed, unless the Fund Board determines that imposing such a fee would not be in the best interests of the Money Market Fund or determines that a lower or higher fee (not to exceed 2%) would be in the best interests of the Money Market Fund.

Liquidity fees and redemption gates, if imposed, may be terminated at any time in the discretion of the Fund Board. Liquidity fees and redemption gates will also automatically terminate at the beginning of the next business day once the Money Market Fund has invested 30% or more of its total assets in weekly liquid assets as of the end of a business day.

The Money Market Fund may not accept purchases during the period that a liquidity fee has been imposed. If the Fund Board imposes a redemption gate, the Money Market Fund will not accept purchase or redemption orders until the Money Market Fund has notified shareholders that the redemption gate has been lifted.

CalTRUST may, and is authorized by each Participant to, redeem Shares owned by such Participant (i) to the extent necessary to reimburse CalTRUST for any loss it has sustained by reason of the failure of such Participant to make full payment for Shares purchased by such Participant, (ii) to the extent necessary to collect any charge relating to a transaction effected for the benefit of such Participant which is applicable to Shares, or (iii) as otherwise deemed necessary and desirable by the Board for CalTRUST to effectively carry out its obligations under the Agreement, this Information Statement, comply with applicable law, or any other obligations in connection with the affairs of CalTRUST. B. MANAGEMENT AND ADVISORY SERVICES

The Investment Manager manages the investment of the assets in the CalTRUST Liquidity Series, Short-Term Series, and Medium-Term Series, including the placement of orders for the purchase and sale of investments, pursuant to an Investment Management agreement with CalTRUST (the “Advisory Agreement”). The Investment Manager obtains and evaluates such information and advice relating to the economy and the securities markets as it considers necessary or useful to manage continuously the assets of CalTRUST in a manner consistent with each Series’ investment objectives and policies. The Advisory Agreement may not be assigned by the Investment Manager without the consent of the CalTRUST Board of Trustees. The Advisory Agreement may be terminated by either party, at any time and without penalty, upon at least 90 days’ prior written notice to the other party.

C. INVESTMENT TRANSACTIONS

The Investment Manager is responsible for decisions to buy and sell securities for CalTRUST and arranges for the execution of securities transactions on behalf of each Series. Purchases of securities are made from dealers, underwriters and

issuers. Sales prior to maturity are made to dealers and other persons. Money market instruments bought from dealers are generally traded on a “net” basis, with dealers acting as principal for their own accounts without a stated commission, although the price of the instrument usually includes a profit to the dealer. Thus, the Series do not normally incur any brokerage commission expense on such transactions. Securities purchased in underwritten offerings include a fixed amount of compensation to the underwriter, generally referred to as the underwriter’s commission or discount. When securities are purchased or sold directly from or to an issuer, no commissions or discounts are paid.

The policy of CalTRUST regarding purchases and sales of securities is that primary consideration will be given to obtaining the most favorable price and efficient execution of transactions. In seeking to implement this policy, the Investment Manager will effect transactions with those dealers whom the Investment Manager believes provide the most favorable price and efficient execution. If the Investment Manager believes such price and execution can be obtained from more than one dealer, it may give consideration to placing portfolio transactions with those dealers who also furnish research and other services to the Investment Manager. Such services may include, but are not limited to, any one or more of the following: information as to the availability of securities for purchase or sale; statistical or factual information or opinions pertaining to investments; wire services; and appraisals or evaluations of portfolio securities. The services received by the Investment Manager from dealers may be of benefit to it in the management of accounts of some or all of its other clients and may not in all cases benefit CalTRUST directly. CalTRUST does not reduce the management fee paid to the Investment Manager by any amount that may be attributable to the value of such services.

SECTION XI

JOINT EXERCISE OF POWERS AGREEMENT

CalTRUST is a separate public agency established as a joint powers authority under the laws of the state of California by execution of a Joint Powers Authority Agreement by certain Public Agencies as the initial Members of CalTRUST. Additional Public Agencies may become Members of CalTRUST by approving a resolution to adopt the Agreement and by signing a counterpart signature page to the Agreement.

Copies of the Agreement may be obtained from the Administrator and should be read before a Public Agency participates in CalTRUST. *All descriptions contained in this Information Statement are subject to the specific language of the Agreement.*

For all matters requiring action by Participants, such action will be taken in proportion to the relative market value of each Participant's Shares of a Series.

The Agreement may be amended by the Board, except to the extent an amendment would adversely affect (i) the Shares Program in which case the amendment shall be subject to approval by a majority of the Shares or (ii) one or more Series of Shares, in which case the amendment shall be subject to approval by a majority of the Shares of any Series affected by such amendment. Among other things, the Board may also amend this Agreement without such Participant approval to change the name of CalTRUST or any Series, to establish and designate additional Series, to supply any omission herein or to correct or supplement any ambiguous defective or inconsistent provision hereof, or if they deem it necessary, to conform the Agreement to the requirements of applicable laws or regulations or to eliminate or reduce any taxes which may be payable by CalTRUST or the Participants, or as otherwise provided herein, but the Trustees shall not be liable for failing to do so.

No amendment may be made which would change any rights with respect to any Share by reducing the amount payable thereon upon liquidation of CalTRUST or by diminishing or eliminating any approval rights pertaining thereto, except with the vote of a majority of the Trustees and the approval of the holders of two-thirds (2/3) of the Shares outstanding and the holders of two-thirds (2/3) of the Shares of any Series affected by such amendment. Nothing in the Agreement permits its amendment to impair the exemption from personal liability of the Members, Participants, Trustees, officers, employees and agents of CalTRUST or to permit assessments upon Participants.

SECTION XII

PARTICIPANT AND TRUSTEE LIABILITY

A. PARTICIPANT LIABILITY

CalTRUST is an entity separate from its Members and the Participants and the Agreement expressly provides that except in the case of fraud or willful misconduct, no Member or Participant shall be subject to any personal liability whatsoever to any person in connection with property or the acts, obligations or

affairs of CalTRUST, and all such persons shall look solely to CalTRUST property for satisfaction of claims of any nature arising in connection with the affairs of CalTRUST.

B. LIABILITY OF TRUSTEES AND OTHERS

The Agreement provides that no Trustee, officer or employee of CalTRUST will be liable for any action or failure to act, and that each will be indemnified by CalTRUST against all claims and liabilities as provided in the Agreement, except that no indemnification will be provided for such person's own bad faith, willful misfeasance, gross negligence or reckless disregard of duty.

The California Joint Exercise of Powers Act provides that all immunities from liability that apply to the activity of Trustees, Members, officers, employees or agents of the Members when performing their functions within the territorial limits of their respective Public Agencies will apply to them to the same degree and extent while engaged in the performance of any of their functions and duties associated with CalTRUST.

CalTRUST shall purchase and maintain insurance on behalf of each Trustee, officer, employee or agent of CalTRUST against any liability asserted against or incurred by such person in such capacity or arising out of such person's status as such, but only to the extent that CalTRUST would have the power to indemnify such person against that liability under the Agreement, unless CalTRUST determines that such insurance is not cost effective for CalTRUST or is otherwise impracticable.
